THE FISH CRISIS.

Some of the Comments Made by the Canadian Press.

Contemptuous Allusions to United States Senators—The Feeling in New England.

TORONTO, Jan. 26.—Referring to the Washington fisheries legislation, the *Globe* of to-day says: "The United States Senate, since it became a caucus of plutocrats, has displayed little statesmanship, and its decadence in the general esteem will be furthered by its 'retaliatory' fisheries bill. When no regular evidence was before them, and with none in rebuttal of the statements of the angry fishermen, the Senators in the United States have brought Canada up for trial, pronounced her guilty and put a weapon for her punishment into the President's hands. The use of that weapon will injure American trade at least as much as Canadian. It does not lessen the contempt due to the Senatorial legislators. Their game, in its diplomatic aspect, is the old one of alarming Great Britain into building Canada." The *Mail* says: "A retaliatory measure has been passed by the United States, and as a result poor Canada is to suffer all the frowns of the Republic if she persists in forcing her treaty rights. The Canadian authorities simply required fishermen to obey the Customs laws, and as all American vessels frequenting Canadian ports are obliged to obey and to report on entrance and to clear regularly upon departure. Only two seizures were made for the violation by Americans of the treaty by purchasing bait. The Canadian Government has not in a single instance refused any fair rights of hospitality, having allowed all reasonable facilities for shelter, repairs, obtaining wood and water, getting medical advice and reasonable supplies for the sustenance of life when vessels have run out of these, and for this Eastern fishermen want the American people to refuse to purchase from or sell to Canada."

New York, Jan. 26.—A Boston special says that the fish dealers of New England are delighted with the passage of the Edmunds resolution. They say that if the Canadians are shut out it will bring them to their senses and force the Canadian Government to take off the restrictions on American vessels. Mayor O'Brien said: "The conduct of the Canadian authorities has been inhuman and brutal. We gain nothing from Canadians in equivalent for what we give them. The balance of trade is always in their favor, and I am glad that Congress has waked up and adopted the policy of retaliation. I think that the provisions of the bill are eminently just and right." Leopold Morse said: "Congress has just got sick of this sort of thing, and is going to show that what is sauce for the goose is sauce for the gander, and if Canada wants to enjoy commercial relations with us, she has got to behave herself. There have been so many complaints and transgressions and so much trouble that it was about time to cry halt, and the action of our Representatives shows that matters have come to a crisis."

Augusta, Me., Jan. 26.—The House yesterday adopted resolutions favoring the retaliatory legislation proposed in Congress by the Government against Canada.

CRAZED BY THE QUAKE.

A Supposed Fireman Found Wandering Naked on a Mountain.

NEW YORK, Jan. 25.—A special to the *World* from Wolf Creek, Tenn., says: George Caldwell, well known hunter a few days ago on Balsam Mountain, one of the highest mountains in North Carolina, discovered a man almost naked wandering aimlessly around in the snow, which was nearly two feet deep, and eight miles from the nearest habitation. On seeing Caldwell he started to run, but was easily overtaken and captured. His clothing was found to consist of a flannel undershirt, which was torn into shreds, and one shoe. His feet were frostbitten and legs fearfully scratched by briars. He is a veritable living skeleton. All efforts to get him to tell his name or give an intelligent account of himself have so far failed. When spoken to he becomes violent, tries to get away and talks deliriously about being a fireman on an engine in Charleston when the big shake came. It is with difficulty he can be made to take nourishment. It is supposed he was crazed by the earthquake shock of August 31, and wandered a man almost naked, but how he has lived this long is a mystery. Caldwell will take steps to restore him to his friends.

Slain by His Child Wife.

WELLSBORO, Pa., Jan. 25.—In a family quarrel this morning Jake Van Woert, a farmer, lying a mile below Stockdale Junction, on the Pine Creek railroad, was shot and instantly killed by his sixteen-year-old wife. Two shots were fired. Sheriff Ferris has gone to arrest Mrs. Van Woert.

The Alleged Express Messenger Murderer.

MORRIS, Ill., Jan. 26.—Henry Schwartz was taken before a police magistrate for preliminary examination, charged with the murder of the Rock Island express messenger. The examination was postponed until Wednesday of next week.

Killed by a Boiler Explosion.

STREUVILLE, O., Jan. 26.—A boiler in the Harvey paper mill at Wellsburg, W. Va., exploded to-day, killing John and Thomas Nelson and severely injuring John Parish. The damage to the building was \$2,000.

For the Relief of Starving Texas.

AUSTIN, Tex., Jan. 26.—A bill appropriating \$100,000 for the relief of sufferers by the drought was passed in the Senate to-day with the necessary two-thirds majority to give it immediate effect.

SHOOTS FIVE MILES.

Great Things Predicted of the Final Trip of the Atlanta.

NEW YORK, Jan. 27.—When the steel cruiser Atlanta goes out on the third and final trial trip, the last of next week, it will assume for the first time the dignity of a fully equipped man-of-war. The guns will be placed in position this week. Among the guns which belong to the equipment are two of twenty-four feet in length with an eight-inch bore. It costs the Government \$150 to fire one of these guns, owing partly to the fact that a very expensive powder, which can be obtained only in Germany, is used. The projectiles for these guns are also obtained from Germany. They weigh 300 pounds, go at the rate of 2,000 feet per second and explode on striking. These two big guns shoot accurately a distance of five miles. The guns are all made at the Ordnance department of the Washington navy yard, and were tested at the Annapolis proving grounds. In order to satisfy the demands of the Government the Atlanta must show an average speed of sixteen knots for six consecutive hours and 3,500 horse power. On the last trip seventeen knots an hour were made for the required time, but only 2,500 horse power could be shown. Hence then several alterations in the machinery have been made.

A MONSTER STRIKE.

Fifty Thousand Men Go Out at New York.

NEW YORK, Jan. 27.—Twenty thousand men are now on strike among the coal shovellers, longshoremen, freight handlers and men employed on the river front in almost every capacity, and the number is augmented to close on fifty thousand by the strikers on the Brooklyn and Jersey shore. In consequence it is almost impossible for any of the steamers for Europe or coastwise to leave port. It is thought that the pilots will be drawn into the struggle. Their interests are with the workmen, and it is alleged that they will refuse to take out the ships. One of the ideas of the leaders is to level up, and another is, and it is the principal one, to attract the attention of the business community and force it to take some cognizance of the strike.

"I'm All Right, But Bad Scared."

LAFAYETTE, Ind., Jan. 27.—While a switch-engine was at work in the Washburn yards, this city, a small colored girl was knocked down and fourteen cars passed over her. Everybody expected the child was ground to atoms, but as soon as the train stopped a woolly head protruded from between the drive-wheels of the engine, and a little voice piped up sharp and shrill: "I'm all right; I ain't hurt, but I'm awful bad scared." The child had been caught up by the ash-pans of the engine about the time the train was stopped, and thus fortunately escaped. She had held on to a little pall she was carrying at the time, and as soon as she could crawl out, ran off home, as though nothing had occurred.

The Canucks Weakening.

HALIFAX, Jan. 27.—Hon. M. S. Phelan, United States Consul General, does not believe the Canadian authorities will act so harshly again as they did last season, and is of the opinion that orders will be issued to commanders of cruisers to give more freedom to American fishermen. He is partly led to hold this belief by the decided front presented by Congress, which he considers will have the effect of showing Canada that the United States do not intend to be trifled with. While nobody expects a warlike conflict, the public generally are now giving more serious attention to the attitude of the United States Congress on the fisheries question.

Poverty and Cremation.

PADUCAH, Ky., Jan. 27.—Two colored children, aged three years, were burned to death in a horrible manner this morning in the outskirts of the city. The mother who had been driven from the house for non-payment of rent, left them tied upon a straw mattress upon the commons and built a fire. Flying sparks set fire to the mattress, and the children were almost consumed before their condition was discovered.

A Victim of the Republic Horror.

MANSFIELD, O., Jan. 27.—This afternoon John Tobill began suit for \$50,000 against the B. & O. railroad for damage sustained in the wreck at Republic. Tobill is at Mansfield, and is constantly attended by two nurses, his sister and niece. He becomes delirious at times, and his cries can be heard in the whole neighborhood. His hands are about healed, but the crown of his head is destitute of hair, and is a mass of cooked meat. His death is looked for.

A Nonagenarian's Journey.

CHICAGO, Jan. 27.—Wm. Reed, a gray-haired man, eighty-nine years old, walked into the Army last night and asked for a night's lodging, stating that he was on his way to Albany, N. Y., from California. He said he left Albany last summer to seek a living in California. Failing to find one he determined to return to his friends in the East, but as he was unable to purchase a ticket was obliged to walk.

Ice-Boats Collide.

ERIE, Pa., Jan. 27.—Two ice-boats came into collision on Eye Bay this evening and were crushed. George Probert was fatally injured. The boats were running at the rate of forty-five miles an hour.

Doubly Fatal Shooting Affray.

FRANKLIN, La., Jan. 27.—A shooting affray occurred at Centerville on Tuesday between two men named Simoneaux and Gordy. Simoneaux was shot through the head, and died from the effects of his injuries this morning. Gordy was shot through the breast, and is thought to be mortally wounded.

WORCESTER, Mass., Jan. 27.—Most of the shoe factories here, and at Spencer, Mass., have posted up notices that they will not be open to Knights of Labor.

PARALYZED.

No Business Done on New York's Great Wharves.

All Ocean Travel is to be Stopped by the Strikers.

NEW YORK, Jan. 28.—Business on the river front this morning is almost completely at a standstill, and, with the exception of a small amount of freight being moved by green hands on one or two piers, little work has been done on the docks of the principal steamship companies since the strike of the longshoremen commenced. The strikers are confident that they will succeed and gain their demands. Their next move will be to get the pilots on the ocean steamer service to come out. The pilots are organized, and should the order go out for them to quit work, the strikers hope to stop all transatlantic steamers from sailing in or out of port. This, the union men claim, will compel the steamship companies to come to terms. At the National Line dock this morning sixty men, who were picked up from various sources, were laid off as they were incompetent. The "Wyoming" was being unloaded by non-union men and the sailors on board. The latter are paid thirty cents per hour in addition to their pay as seamen. The green hands were immediately taken in charge by members of the Longshoremen's Union and were organized and became part of the strikers' union.

DEER STORY FROM DETROIT.

Remarkable Capture of a Buck on a Cake of Floating Ice.

DETROIT, Mich., Jan. 28.—Some hunters on the Canadian side of the Detroit river, while after a deer yesterday, chased it to the river's edge. The river was full of large cakes of floating ice, and the animal sought to cross by jumping from one to another. A large crowd gathered on the dock on this side of the river and preparations were made for his capture. The captain of the transfer steamer Lansdowne backed out into the stream and throwing a rope over the deer's horns, hauled it on board. The crossing was made near the foot of Eighteenth street, the deer having crossed from Sandwich. The story is well authenticated.

K. of L. and the Pinkerton's.

CHICAGO, Jan. 28.—The Knights of Labor have declared war upon the Pinkertons and other detective agencies which make it a business to furnish armed patrolmen for services in labor troubles, and within the next thirty days bills prohibiting the importation of Pinkerton detectives and making it a penal offense for any employee of such agency to exercise authority as an officer of the law, will be introduced in nearly every State Legislature which is now in session in this country. This fact was learned upon undoubted authority this morning, and it was also developed that the movement originated in Chicago.

Is Germany Preparing for War?

BERLIN, Jan. 28.—Emperor William announces that seventy-two thousand reserves will be called out at once. Speaking later, he said that it did not mean war, but was simply intended to familiarize them with the new repeating rifle. Crown Prince Frederick William, however, is quoted as saying that the situation is still serious. The reported fact that Germany has made arrangements to erect barracks at various points along the French frontier carries out the Prince's statement.

A Colored Woman Turns Burglar.

BALTIMORE, Jan. 28.—This morning Mary Jones, a colored woman, was shot while burglariously entering the wholesale grocery of Wagner, Everett & Rountree. A person was seen to enter by a rear window, but in the darkness it could not be discovered that the party was a woman, and Mr. Rountree fired a shot-gun at the figure, which fell inside the building. The wounds are not serious, though 178 shots have been taken from her side, arm and shoulder.

Glass in the Biscuits.

DETROIT, Mich., Jan. 28.—A servant girl in the family of a man named Whalley, in Osceola County, was churning a few days ago. She accidentally broke a tumbler, the pieces falling into the cream. She removed all the fragments, as she supposed, and made biscuits, using the buttermilk, and the result is a son of the household has a number of pieces of glass in his stomach and will probably die.

Better Let Them Go Free.

MONTREAL, Jan. 28.—The Canadian Government has decided to release the American fishing schooners Jeannette and Maggie Mitchell, seized by the cruiser Middleton at St. Andrews, N. B., a few weeks ago, on the payment of fines of \$50 and \$100 respectively. The charge was for an infraction of customs and fisheries regulations.

Michigan to Try Prohibition.

LANSING, Mich., Jan. 28.—The State Senate, last night, passed the joint resolution to submit a prohibitory amendment to a vote of the people by a vote of 22 to 10.

A Prohibition Amendment in Tennessee.

NASHVILLE, Tenn., Jan. 28.—The Senate today passed on its final reading the Prohibition amendment to the constitution, the vote being ayes 81, nays 2.

Sullivan's Broken Arm.

NEW YORK, Jan. 28.—Dr. Sayre examined John L. Sullivan's broken arm and found that it had been improperly set. He informed Sullivan of the fact, and, with his consent, broke it again by a sudden twist and reset it. Sullivan fainted with the pain.

Knights of Labor Suing for Damages.

BALTIMORE, Jan. 28.—Assembly 1,884, of the Knights of Labor, of this city, have filed suit against Ruth & Son, for alleged violation of contract to pay the sole of wages for one year, claiming \$21,000 damages.

CEMENTATION.

The New Process Used at the Burial of David H. Thomas at Niagara Falls.

BUFFALO, N. Y., Jan. 30.—The funeral of David H. Thomas, late Superintendent of the Erie railroad, took place at Suspension Bridge this afternoon. A delegation of Buffalo people, including the board of health, were present to witness the new antiseptic process of "cementation" which the remains were to be treated to. The grave was sixteen inches larger each way than usual. Eight inches of cement were then put in the open grave, and the outer case was lowered so as to set squarely upon the cement, leaving a small trench eight and a half inches wide about the case, the upper surface of it being eight inches lower than the surface of the ground. The trench was then filled with cement and the casket lowered into the case. The cover was screwed on and eight inches more of cement placed over it, bringing the surface of the cement level with the ground. The process produced a favorable impression on the spectators. The process by which it was at first proposed to bury the body was to place fine sulphur and powdered charcoal, with alcohol between the casket and outer case. Then setting fire to it, screw the lid on, the object being to absorb all liquids in the body and neutralize the gas arising from the body. The gas generated by the burning sulphur would prevent decomposition. Among other advantages this form of burial secures its protection from grave robbers.

A KENTUCKY LYNCHING.

William Cornish, Who Shot Lulu Green, Taken from Jail and Hanged.

LOUISVILLE, Ky., Jan. 30.—Last Monday William Lud Cornish, of Sharpshooter, Washington County, shot Miss Lulu Green through the heart and brain because she would not marry him. He also tried to kill the girl's mother and sister, but failed on account of his pistol getting out of order. The mother received a severe wound in the hand, and was knocked down with the pistol. Cornish was captured and taken to Springfield, the county seat. Last night a mob composed of 75 men entered the jail and secured the prisoner. He was taken to a farm about two miles north of town and hanged.

Chinese Muldoons.

NEW YORK, Jan. 30.—No. 566 Fulton street, Brooklyn, has been known as a Chinese tea store, but to-night the police battered down the doors and captured seventy-four Chinese gambling and \$50,000 in cash. Three prisoners had \$7,000 each, and two \$5,000 each. They came from San Francisco, St. Louis, Chicago, Pittsburgh, Newark and Paterson, N. J., for the purpose of breaking the bank of the gambling house at the address named.

Extortion and Perjury.

WILKESBARRE, Pa., Jan. 30.—Thomas O. Evans, Burgess of Nanticoke, was convicted in the criminal court here, yesterday, of extortion and perjury in office. Among the charges was that of committing Hungarians and Poles to prison without authority, and imposing and collecting fines which were not warranted under the law. Congressman John Lynch was counsel for the defendant. The trial created intense interest and excitement.

Logan Memorial at Williamsburg.

LONG ISLAND CITY, N. Y., Jan. 30.—Fully twenty-five hundred persons attended the services commemorative of General John A. Logan at Grand Army Hall, Williamsburg, this evening. The services were held under the auspices of Mansfield Post, No. 35, G. A. R. The hall was appropriately draped and the services were very impressive.

Cholera Disappearing in Buenos Ayres.

BUENOS AYRES, Jan. 30.—The sanitary condition of this country is now very good. The cholera has completely disappeared from Cordova and nearly so from Tucuman and Mendoza, where only four or five cases now exist. In Montevideo, Uruguay, there are from fifteen to twenty cases and there have been eight or ten deaths.

A Rich Milwaukeean's Suicide.

MILWAUKEE, Wis., Jan. 30.—Temporary insanity, due to physical sufferings, caused John Dahlman to hang himself in his barn this afternoon. He was formerly one of the leading wholesale grocers of the city and amassed a fortune of \$800,000. He owned nearly half the residence portion of the Third Ward of this city.

Austria Getting Ready.

VIENNA, Jan. 30.—A grand imperial council was held to-day, over which the Emperor presided. All of the Austrian and Hungarian ministers were present. It was decided that the delegations should be convoked, in March, to vote extra military credits of \$15,000,000, and a special credit for the equipment of the Landsturm.

France's Desire for Peace.

PARIS, Jan. 30.—M. Flourens, Minister of Foreign Affairs, has sent a dispatch to H. Herbet, French Ambassador at Berlin, in which he urges the latter to lose no opportunity for impressing upon Germany France's earnest desire for peace, in which desire the whole Cabinet concurs.

FORTY-NINTH CONGRESS.

Second Session.

WASHINGTON, Jan. 24.—SENATE.—The credentials of Senators-elect Farwell, of Illinois, and Davis, of Minnesota, were presented. A bill was passed providing that post-offices of the third class shall not be placed in the fourth-class when the gross receipts amount to \$1,500, or where the compensation of the postmaster amounts to \$1,000. The retaliation bill to exclude Canadian vessels from American ports was passed—46 to 1. Riddleberger voting no. At 6:45 p. m. the Senate adjourned.

HOUSE.—Bills introduced: Proposing a constitutional amendment changing the time for the assembling of Congress to the first Wednesday of January of each year; to increase the naval establishment. [It authorizes the construction of two steel cruisers of about four thousand tons displacement, of the type of "Cruiser No. 1," at a cost, exclusive of armament, of not more than \$1,200,000 each; five steel gunboats, of the type of "Gunboat No. 1," at a cost, exclusive of armament, of not more than \$350,000 each; and six steel torpedo-boats, having a maximum speed of not less than twenty-four knots per hour, to cost, exclusive of armament, \$100,000 each. The river and harbor bill was debated until 5:10 p. m., when the House adjourned.

WASHINGTON, Jan. 25.—SENATE.—Mr. Farwell was sworn in. Mr. Hale's credentials for re-election were presented. The conference report on the army appropriation bill was presented and agreed to. The total of the bill is \$23,734,718. The conference report on the bill allowing lands in severalty to the Indians was also agreed to. The amendment to the constitution providing for woman suffrage was taken up, debated and defeated—nays 34, yeas 18. Public building bills were passed for Minneapolis, Santa Fe, Chester, Pa., Chattanooga, Charleston, S. C., Jefferson, Tex., Hastings, Neb., and Hanover N. H.

HOUSE.—A communication was received from the Secretary of War disapproving the petition of enlisted men for the reduction to twenty-five years of the period of service for the retired list. The Rhode Island contested election case of Page vs. Pierce was debated all day. The majority report declaring the seat vacant was agreed to—yeas 151, nays 31. The agricultural appropriation bill was reported.

WASHINGTON, Jan. 26.—SENATE.—Bills were reported and placed on the calendar. An amendment to the rules was offered by Mr. Hoar to require the presence of a quorum before prayer is offered by the Chaplain. A resolution directing an investigation into political outrages in Washington County, Texas, was adopted, 41 to 25. The bill to establish agricultural experimental stations was taken up. After discussion and amendment, Mr. Hawley offered a substitute, and moved that bill and substitute be printed. The matter went over until to-morrow. Beck's railroad attorney bill was then taken up, and at 4:35 p. m. the Senate went into executive session.

HOUSE.—Senate fisheries bill was referred to the Committee on Foreign Affairs. The conference report on the army appropriation bill was agreed to. The river and harbor bill secured precedence over the pleuro-pneumonia bill. An amendment providing that the appropriations be expended under direction of the President was rejected. An amendment was then offered, as a substitute for the bill, providing for an appropriation of seven and one-half millions, to be expended by a board of engineers. After a long debate the amendment was agreed to in committee of the whole, and then reported to the House and the previous question ordered. The substitute was rejected in the House by a vote of yeas 46, nays 176, on its adoption, and this placed the original bill before the House. The bill was ordered engrossed, read the third time and previous question ordered. Reading of the engrossed copy was demanded, but as the bill had not been engrossed it could not be read.

WASHINGTON, Jan. 27.—SENATE.—Mr. Cullom announced that he would offer resolutions with reference to the late Senator Logan on Wednesday, February 9. Mr. Edmunds' postal telegraph bill was reported and placed on the calendar. A resolution was adopted directing an inquiry by the Finance Committee into the subject of recording fractional sales into standard dollars. The bill for the relief of disabled veterans was taken up and passed without division. The agricultural experiment station bill was then passed. At 5 p. m. the Senate adjourned.

HOUSE.—The river and harbor bill was passed—154 to 94. The Senate bill was reported, preventing the importation of adulterated samples of food. A joint resolution was reported providing for the election of Senators by the people of States. The District traction railway bill was taken up and discussed. There was filibustering to prevent a vote, and a recess was taken to carry the legislative day over until to-morrow at 11 o'clock. A night session was held for the consideration of pension bills.

WASHINGTON, Jan. 28.—SENATE.—A number of petitions were presented for the reduction or repeal of internal revenue taxes. The credentials of Senator-elect Quay, (Pa.) were presented. The Committee on Privileges and Elections was granted leave to sit during sessions of the Senate, to take testimony in the Teague case. Bills were reported incorporating the

The River and Harbor Bill has passed the House. It provides \$16,000 for the Big Sandy river, of which sum \$2,500 is to be expended on the Louisa Fork, and \$2,500 on the Tug Fork. The Kentucky river gets \$100,000.

Although the Democrats have decided majorities on joint ballot in the Legislatures of New Jersey, Indiana, West Virginia and Texas, the balloting for U. S. Senator goes wearily on without any indication of an early election in either State.

There is a strike in the East among the coal handlers which it is predicted, will probably be the greatest labor movement of modern times. The Knights of Labor are threatening that every trade and interest shall feel their power unless the demands of the coal strikers are heeded.

Considerable talk of war between the United States and England, growing out of the Canadian fishery troubles, has been indulged in during the past week. A bill authorizing the President to protect and defend the rights of Americans in their fishing rights was passed with but one dissenting vote—Mr. Riddleberger, of Virginia.

A bill, known as the Dependent Soldier's Pension Bill, has been passed by both the House and Senate. This bill pensions all honorably discharged soldiers (who are now dependent upon their own labor for support) who were engaged in the Seminole, Mexican and other wars, entirely regardless as to whether they have subsequently gone into rebellion against the Government.

The Interstate commerce bill has passed both branches of Congress, and only awaits the President's signature to become operative. It prohibits discrimination in railroad rates and poolings, and declares that passengers and freight must be based upon rates reasonable and just. Rates can not be raised without ten days public notice, but can be reduced without any notice being given. Five commissioners are to be appointed, under the provisions of the bill, whose duty it will be to look after the faithful compliance of the railroads with the law. The railroad men predict much trouble and disaster; but now the bill is a law, it should have a fair chance to prove its good to the people at large. The overwhelming majority by which the bill passed both houses was a surprise to the railroads as it was to the country.—Capital.

An editorial in the first issue of the Mountain Cyclone is in its greatest curiosity of the

newspaper age, and amply worth a perusal. Here it is, read it through and you will understand it:

"We begin the publication of the 'Rocay Mountain Cyclone' with some phew diphtheries in the way. The type pounders phrom whom we bought our outfit phor this printing opphice phailed to supply us with any ephs or cays, and it will be phour or phive weax hephore we can get any. The mystique was not phound out till a day ago. We have ordered the missing letters, and will have to get along without them till they come. We don't like the look of this variety of spelling any better than our readers, but mistakes will happen in the best regulated phamilies, and ph the eph's and c's and x's and p's hold out we shall ceep (sound the chard) the 'Cyclone' whirling apher a phashion till the sorts arrive. It is no joke to us—it's a serious apphair."—Ceredo Advance.

Diseases Dangerous to the Public Health.

Whenever any householder shall know or suspect that any person within his or her family, or who may be temporarily residing with him or her, is sick with small-pox, scarlet-fever, diphtheria, cholera, or any other disease dangerous to the public health, he shall immediately give notice to the health officer within whose jurisdiction he may reside. In all cases where diseases dangerous to public health are reported, the officer within whose jurisdiction the disease occurs shall at once send one of the "Preventive Disease Circulars" to the infected household.

Whenever any physician shall know or suspect that any person whom he is called to visit has small-pox, scarlet fever, diphtheria, cholera, or any other disease dangerous to the public health, such physician shall give notice immediately, together with the locality and full description of the case, to the health officer, or to a member of the Local Board of Health within whose jurisdiction the disease or diseases may occur.

It shall be the duty of the attending physician and the head of the family to see that the proper flags of warning, under the instruction of the local health officer, be placed in the proper position. It shall be his further duty to give all persons affected with contagious or infectious diseases coming under his care, and those having charge or care of them, notice of the rules and regulations of this Board pertaining to all such diseases.

No parent, guardian, or other person having charge or control of any child or children shall allow or permit any such child or children to go from any house or building infected with small-pox, scarlet fever, diphtheria, measles, whooping-cough, cholera, and other contagious or infectious diseases, to attend any church, or public meeting, or place of amusement, or to travel in any street car or public vehicle.

No person shall be permitted to go from any house or building infected with scarlet fever, diphtheria, measles, cholera, small-pox, or other contagious or infectious diseases dangerous to public health, to attend any church, public meeting, or place of amusement, or travel in any street car or public vehicle without the permission of the health officer.

No person recovering from any infectious disease, dangerous to public health, shall be permitted to appear upon the public street or public highway, or in any public place, until all danger from contagion by reason of such disease is passed and a certificate from the local health officer or family physician to that effect placed in the hands of those in authority.

The room in which there has been a case of infectious disease, dangerous to public health, must be thoroughly disinfected immediately, and all infected clothing, bedding, carpets, turniture, etc., either cleaned and disinfected, or destroyed. All such work to be done under the supervision of the health officer.

In all cases of death from small-pox, scarlet fever, diphtheria, or cholera, the body should be wrapped in a sheet, saturated with a solution of corrosive sublimate (one ounce to a gallon of water) placed in a coffin as soon as possible, which should never be opened, and buried without any public demonstration or funeral.

The above are some of the rules of the Board of Health, and they will be rigidly enforced.

The following also deserve honorable mention for their good attendance: Ben Leffingwell, absent two days of five months term; Frank Marcum, absent three days; Henry Snyder absent one day.

Let us discard a beginning, and begin by a conclusion of the whole matter, which is, that Cousens' Honey of Tar for coughs, colds, and diseases of the throat and lungs, is unequalled. There are numberless imitations of this excellent remedy, but only one Cousens' Honey of Tar, a positive cure for coughs, colds, and diseases of the throat and lungs.

WHAT TYPE MERIT WILL DO. The unprecedented sale of Boschee's German Syrup within a few years, has astonished the world. It is without doubt the safest and best remedy ever discovered for the speedy and effectual cure of coughs, colds, and the severest lung troubles. It acts on an entirely different principle from the usual prescriptions given by physicians, as it does not dry up a cough and leave the disease still in the system but on the contrary, removes the cause of the trouble, heals the parts effected and leaves them in a purely healthy condition. A bottle kept in the house for use when the diseases make their appearance, will save doctor's bills and a long serious illness. A trial will convince you of these facts. It is positively sold by all druggists and general dealers in the land. Price 75 cts., large bottles.

Editors Big Sandy News:—Your issue of last week had a communication from Pikeville signed "A Citizen." The author was wasting his indignation, as the story of Mr. Broas having been shot was told about that gentleman without his knowledge, having been started by a practical joker as a piece of fun, because as Mr. Broas landed from the boat in which he had paddled down the river he "walked lame" in coming up the grade.

However it is not to contradict the hooting story that this is written as the alleged victim has himself denied it, and his veracity is so well established his own word settles the question wherever he is known.

But there is the statement that many of the people of Pikeville believe Mr. Broas started the story from some interested motive; and this reflection on that gentleman is so unjust and entirely undesired it should not pass without notice. During the six years he has been operating in the Big Sandy Valley he has probably spent more money in prospecting for iron and oil and in developing coal veins than all other people combined have expended for such purposes in this valley, in the same time. He also effected the largest cash purchase in Martin, Floyd and Johnson counties, both as to the amount of money and number of acres involved, that has been made for years in this section.

As by uniform fair dealing and keeping of promises Mr. Broas has won a reputation for truth and honesty, and has sought in the past, as he is yet doing, to interest outside capital to develop and utilize our mineral resources, and attract immigration to this part of the world, he has proven a welcome visitor and a good friend to the people of the Big Sandy valley. FAIR PLAY.

TERMS.—Sale will be made on three months credit. Witness my hand, this 31st day of January, 1887. A. L. SHANKEN, S. L. C.

THIS GOOD OLD STAND-BY

accomplishes for everybody exactly what is claimed for it. One of the reasons for the great popularity of the Mustang Liniment is found in its universal applicability. Everybody needs such a medicine. The Lumberman needs it in case of accident. The Housewife needs it for general family use. The Cannery needs it for his team and his men. The Mechanic needs it always on his work bench. The Miner needs it in case of emergency. The Pioneer needs it—can't get along without it. The Farmer needs it in his house, his stable, his stock yard. The Steamboat man or the Boatman needs it in liberal supply aboard and ashore. The Horse-fancier needs it—it is his best friend and safest reliance. The Stock-grower needs it—it will save him thousands of dollars and a world of trouble. The Merchant needs it about his store among his employees. Accidents will happen, and when these come the Mustang Liniment is wanted at once. Keep a Bottle in the House. 'Tis the best of economy. Keep a Bottle in the Factory. Immediate use in case of accident saves pain and loss of wages. Keep a Bottle Always in the Stable for use when wanted.
